(Complete two copies according
to the following categories):

- a) Publications or original works (including books, performances, films, exhibitions, etc.). List in proper bibliographical form according to the discipline including title and pagination, and indicate with an asterisk those you consider of primary importance. Include only those published or in press. Work appearing in refereed publications should either be identified by an ^R in the left hand margin beside the bibliographical entry or by separate listing under the heading: Refereed Publications.

Example 1:

^RFaiman, M.D., Nolan, R.J. "Effect of High Oxygen Pressure on Brain ATP", Biochem. Pharmacol. 22:2171-2181 (1973)

Example 2:

*Dubos, Rene, "Man Adapting", Yale University Press, New Haven Connecticut, 1965, 300 pages.

- b) Completed and unpublished material including Commission Reports, Discussion Papers or similar materials (include only those of significance; if paper read at a conference, indicate date and nature of conference as well as status of other material).
- c) Work in progress (indicate degree of completion at the time of last updating of curriculum vitae).

(c) Work in Progress

"Management of Transboundary Fishery Resources". This is an issue on which I have worked for many years and in which I have gained considerable insight from my work with the PECC Fisheries Task Force. A new form of this issue has emerged in recent years in the form of fishery resources that cross the boundary of the coastal state Exclusive Economic Zone into the adjacent high seas. The management of such transboundary resources is much more difficult than that of the more common form of transboundary resources in the form of fishery resources shared by two or more coastal states.
